Dear Dick, 4/12/93

My alleged co-conspirator Gary Shaw's copier was out of order when he made some copies for me because I had an appointment with the state's attorney's assistant. I'd told you what I intend and sent you a copy of the code, if you've forgotten.

I hope to get better copies.

I've copied several first pages and with that identification several references to his publishers.

The enclosed second page of the 12/3/92 letter refers to you.

The telephone message left for Shaw is unclear. It reads that Livingstobe left the message, "My publisher has decided to prosecute all of you ..."

That was March 20 of this year.

My appointment was delayed because of the illness of the assistant I was to have seen.

Best,

Harold
